CACI INTERNATIONAL INC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1 – Nature of Operations and Basis of Presentation

CACI International Inc (collectively, with its consolidated subsidiaries, “CACI,” the “Company,” “we,” “us,” and “our”) is a leading provider of Expertise and Technology to customers in support of national security in the intelligence, defense, and federal civilian sectors, both domestically and internationally. The Company’s customers include agencies and departments of the United States (U.S.) government, various state and local government agencies, foreign governments, and commercial enterprises.

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and include the assets, liabilities, results of operations, comprehensive income and cash flows of the Company, including its subsidiaries and joint ventures that are majority-owned or otherwise controlled by the Company. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information presented not misleading. All intercompany balances and transactions have been eliminated in consolidation. Certain prior year amounts have been reclassified to conform to the current year presentation.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments and reclassifications (consisting of a normal, recurring nature) necessary for the fair presentation of the periods presented. It is suggested that these unaudited condensed consolidated financial statements be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company’s latest annual report to the SEC on Form 10-K for the year ended June 30, 2025. The results of operations for the three and nine months ended March 31, 2026 are not necessarily indicative of the results to be expected for any subsequent interim period or for the full fiscal year.

Note 2 – Recent Accounting Pronouncements

In September 2025, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2025-06, *Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*, which amends certain aspects of the accounting for and disclosure of software costs under ASC 350-40. The ASU will be effective beginning with our fiscal 2029 annual financial statements, including interim reporting periods within that year, and may be adopted prospectively or retrospectively. We are currently evaluating the impacts of the new standard.

Note 3 – Acquisitions

ARKA Group L.P.

On March 9, 2026, CACI acquired all of the equity interests of ARKA Group L.P. (ARKA) for purchase consideration of approximately \$2,642.7 million, net of cash acquired, subject to post closing adjustments. This acquisition will enhance CACI's ability to deliver advanced technology for its national security customers in the space domain. The Company funded the acquisition from increased borrowings and cash on hand.

The purchase price was allocated, on a preliminary basis, among assets acquired and liabilities assumed at fair value on the acquisition date, based on the best available information, with the excess purchase price recorded as goodwill. As of March 31, 2026, the Company has not finalized the determination of fair values allocated to various assets and liabilities, and the purchase price allocation is subject to change as the Company continues to obtain and assess relevant information that existed as of the acquisition date. The preliminary allocation of the total estimated purchase consideration is as follows (in thousands):

Accounts receivable, net	\$	115,075
Prepaid expenses and other current assets		27,047
Goodwill		1,441,948
Intangible assets, net		1,180,000
Property, plant, and equipment, net		124,373
Operating lease right-of-use assets		24,846
Other assets		637
Accounts payable		(15,129)
Accrued compensation and benefits		(11,923)
Other accrued expenses and current liabilities		(135,382)
Deferred income taxes		(88,867)
Operating lease liabilities		(19,959)
Total estimated consideration	\$	<u>2,642,666</u>

The preliminary fair value attributed to intangible assets of \$1,180.0 million consists of customer relationships of \$890.0 million and technology of \$290.0 million. The fair value attributed to intangible assets is amortized over 2 to 14 years. The fair value attributed to the intangible assets acquired was based on assumptions and other information compiled by management, including independent valuations that utilized established valuation techniques. Goodwill reflects benefits that are not separately identifiable from net tangible and intangible assets acquired, including new customers and platforms, technologies, and the assembled workforce. Of the value attributed to goodwill and intangible assets, approximately \$1,335.8 million is deductible for income tax purposes.

The Company entered into a commitment letter (the Commitment Letter), dated December 19, 2025, with Wells Fargo Bank, National Association (Wells Fargo), for a senior secured bridge loan facility in an aggregate principal amount of up to \$1,300.0 million. The Commitment Letter remained undrawn and was terminated on March 9, 2026 upon consummation of the acquisition. Commitment fees incurred for the three and nine months ended March 31, 2026 were \$3.3 million.

Datalynx Limited

On February 17, 2026, CACI Limited acquired Datalynx Limited (Datalynx) for \$10.7 million, net of cash acquired, which includes initial cash payments, deferred consideration and an estimated working capital payment. Datalynx provides specialist data and cloud migration services in mission-critical environments to government clients. The Company preliminarily recognized goodwill and intangible assets of \$11.0 million and \$3.5 million, respectively.

For the nine months ended March 31, 2026, combined post-acquisition revenues and net loss for ARKA and Datalynx were \$28.5 million and \$0.4 million, respectively, including the impact of \$5.8 million of intangible amortization. Pro forma results of operations for these acquisitions are not material to the Company's consolidated results of operations. Total acquisition-related costs of \$22.1 million were reported in indirect costs and selling expenses.

Azure Summit Technology

On October 30, 2024, CACI acquired all of the equity interests of Azure Summit Technology, LLC (Azure Summit) for purchase consideration of approximately \$1,308.7 million, net of cash acquired. During Fiscal 2026, the Company recorded measurement period adjustments that resulted in a net increase to goodwill of \$1.5 million. The final allocation of the purchase consideration is as follows (in thousands):

Accounts receivable, net	\$	70,544
Prepaid expenses and other current assets		26,541
Goodwill		582,907
Intangible assets, net		635,000
Property, plant, and equipment, net		16,349
Operating lease right-of-use assets		9,607
Other assets		211
Accounts payable		(16,207)
Accrued compensation and benefits		(3,860)
Other accrued expenses and current liabilities		(4,292)
Operating lease liabilities		(8,062)
Total consideration	\$	<u>1,308,738</u>

Applied Insight

On October 1, 2024, CACI acquired all of the equity interests of AI Corporate Holdings, Inc. and Applied Insight Holdings, LLC for purchase consideration of approximately \$314.3 million, net of cash acquired.

Identity E2E

On April 3, 2025, CACI Limited acquired all of the equity interests of Identity E2E Limited for purchase consideration of \$58.9 million, net of cash acquired.

Note 4 – Goodwill and Intangible Assets

Goodwill

The changes in the carrying amount of goodwill for the nine months ended March 31, 2026 are as follows (in thousands):

	Domestic	International	Total
Balance at June 30, 2025	\$ 4,773,411	\$ 248,394	\$ 5,021,805
Goodwill acquired ⁽¹⁾	1,443,499	9,975	1,453,474
Foreign currency translation	800	(9,530)	(8,730)
Balance at March 31, 2026	<u>\$ 6,217,710</u>	<u>\$ 248,839</u>	<u>\$ 6,466,549</u>

⁽¹⁾ Includes goodwill initially allocated to new business combinations as well as measurement period adjustments, when applicable.

There were no impairments of goodwill during the period.

Intangible Assets

Intangible assets, net consisted of the following (in thousands):

	March 31, 2026			June 30, 2025		
	Gross carrying value	Accumulated amortization	Net carrying value	Gross carrying value	Accumulated amortization	Net carrying value
Customer contracts and related customer relationships	\$ 1,954,972	\$ (505,289)	\$ 1,449,683	\$ 1,062,718	\$ (432,520)	\$ 630,198
Acquired technologies	878,223	(164,692)	713,531	646,823	(185,745)	461,078
Total intangible assets	<u>\$ 2,833,195</u>	<u>\$ (669,981)</u>	<u>\$ 2,163,214</u>	<u>\$ 1,709,541</u>	<u>\$ (618,265)</u>	<u>\$ 1,091,276</u>

Amortization expense related to intangible assets was \$41.0 million and \$113.0 million for the three and nine months ended March 31, 2026, respectively, and \$36.8 million and \$87.2 million for the three and nine months ended March 31, 2025, respectively.

Note 5 – Revenues and Contract Balances

Disaggregation of Revenues

The Company disaggregates revenues by contract type, customer type, prime or subcontractor, and whether the solution provided is primarily Expertise or Technology. These categories represent how the nature, amount, timing, and uncertainty of revenues and cash flows are affected.

Disaggregated revenues by contract type were as follows (in thousands):

	Three Months Ended March 31, 2026			Nine Months Ended March 31, 2026		
	Domestic	International	Total	Domestic	International	Total
Cost-plus-fee	\$ 1,273,227	\$ —	\$ 1,273,227	\$ 3,965,968	\$ —	\$ 3,965,968

Changes in Estimates

The aggregate net changes in estimates for the three and nine months ended March 31, 2026 resulted in a decrease to income before income taxes of \$4.3 million (\$0.14 per diluted share) and an increase of \$2.4 million (\$0.08 per diluted share), respectively. For the three and nine months ended March 31, 2025, the aggregate net changes in estimates resulted in an increase to income before income taxes of \$3.4 million (\$0.11 per diluted share) and \$11.1 million (\$0.37 per diluted share), respectively. The Company uses its statutory tax rate when calculating the impact to diluted earnings per share.

Revenues recognized from previously satisfied performance obligations were not material for the three and nine months ended March 31, 2026 and March 31, 2025, respectively. The change in revenues recognized from previously satisfied performance obligations generally relates to final true-up adjustments for estimated award or incentive fees in the period in which the customer's final performance score was received or when it can be determined that more objective, contractually-defined criteria have been fully satisfied.

Remaining Performance Obligations

As of March 31, 2026, the Company had \$12.3 billion of remaining performance obligations and expects to recognize approximately 45% and 63% as revenue over the next 12 and 24 months, respectively, with the remainder to be recognized thereafter.

Contract Balances

Contract balances consisted of the following (in thousands):

Description of Contract Related Balance	Financial Statement Classification	March 31, 2026	June 30, 2025
Billed and billable receivables	Accounts receivable, net	\$ 1,156,880	\$ 1,098,237
Contract assets – current unbilled receivables	Accounts receivable, net	349,900	307,204
Contract assets – current costs to obtain	Prepaid expenses and other current assets	7,300	7,059
Contract assets – noncurrent unbilled receivables	Other assets	17,198	14,694
Contract assets – noncurrent costs to obtain	Other assets	14,242	13,897
Contract liabilities – current deferred revenue and other contract liabilities	Other accrued expenses and current liabilities	(289,341)	(190,400)
Contract liabilities – noncurrent deferred revenue and other contract liabilities	Other liabilities	(3,202)	(6,014)

Revenue recognized from amounts included in the contract liability balance at the beginning of the period was \$26.3 million and \$157.8 million for the three and nine months ended March 31, 2026, respectively. Such revenue was \$18.3 million and \$111.8 million for the three and nine months ended March 31, 2025, respectively.

Note 6 – Inventories

Inventories, net consisted of the following (in thousands):

	March 31, 2026	June 30, 2025
Raw materials	\$ 133,912	\$ 87,348
Work in process	32,853	21,285
Finished goods	15,361	20,496
Total	<u>\$ 182,126</u>	<u>\$ 129,129</u>

Inventories, net are included in prepaid expenses and other current assets on the condensed consolidated balance sheets.

Note 7 – Sales of Receivables

On December 19, 2025, the Company amended its Master Accounts Receivable Purchase Agreement (MARPA) with MUFG Bank, Ltd. (Purchaser) for the sale of certain designated eligible U.S. government receivables. The amendment extended the term of the MARPA to December 18, 2026. Under the MARPA, the Company can sell eligible receivables, including certain billed and unbilled receivables up to a maximum amount of \$350.0 million. The Company's receivables are sold under the MARPA without recourse for any U.S. government credit risk.

The Company accounts for receivable transfers under the MARPA as sales under ASC 860, *Transfers and Servicing*, and derecognizes the sold receivables from its consolidated balance sheets. The fair value of the sold receivables approximated their book value due to their short-term nature.

The Company does not retain an ongoing financial interest in the transferred receivables other than cash collection and administrative services. The Company estimated that its servicing fee was at fair value, and therefore, no servicing asset or liability related to these receivables was recognized as of March 31, 2026. Proceeds from the sold receivables are reflected within operating activities on the condensed consolidated statements of cash flows.

MARPA activity consisted of the following (in thousands):

	As of and for the Nine Months Ended March 31,	
	2026	2025
Beginning balance:	\$ 288,909	\$ 250,000
Sales of receivables	2,841,139	2,814,912
Cash collections	(2,895,121)	(2,764,912)
Outstanding balance sold to Purchaser ⁽¹⁾	234,927	300,000
Cash collected, not remitted to Purchaser ⁽²⁾	(29,104)	(79,150)
Remaining sold receivables	<u>\$ 205,823</u>	<u>\$ 220,850</u>

⁽¹⁾ For the nine months ended March 31, 2026 and 2025, the Company recorded a net cash outflow of \$54.0 million and a net cash inflow of \$50.0 million from operating activities, respectively, from sold receivables.

⁽²⁾ This balance is included in other accrued expenses and current liabilities as of the balance sheet date.

Note 8 – Long-term Debt

Long-term debt consisted of the following at the periods presented below (dollars in thousands):

	As of March 31, 2026				June 30, 2025
	Maturity Date	Stated Interest Rate	Effective Interest Rate	Outstanding Balance	Outstanding Balance
Revolving Facility	November 2030	5.32%	5.32%	\$ 928,000	\$ 124,500
Term Loan	November 2030	4.92%	4.98%	1,242,188	1,071,875
Term Loan B	October 2031	5.42%	5.65%	740,625	746,250
Term Loan B-2	March 2033	5.42%	5.62%	800,000	—
2033 Notes	June 2033	6.38%	6.58%	1,000,000	1,000,000
2033 Notes-2	June 2033	6.38%	6.08%	500,000	—
Principal amount of long-term debt				5,210,813	2,942,625
Less unamortized debt discount, premium, and issuance costs				(30,236)	(24,685)
Total long-term debt				5,180,577	2,917,940
Less current portion				(46,750)	(68,750)
Long-term debt, net of current portion				\$ 5,133,827	\$ 2,849,190

On November 25, 2025, the Company amended its senior secured credit facility (the Credit Facility) primarily to extend the maturity date. As amended, the Company's \$3,250.0 million credit facility consists of a \$2,000.0 million revolving credit facility (the Revolving Facility) and a \$1,250.0 million term loan (the Term Loan). The Revolving Facility permits renewable borrowings and has sub-facilities of \$150.0 million for same-day swing line loan borrowings and \$25.0 million for stand-by letters of credit. The interest rates applicable to loans under the Credit Facility are floating interest rates that, at the Company's option, equal a base rate or a Secured Overnight Financing Rate (SOFR) rate plus, in each case, an applicable margin based upon the Company's consolidated total net leverage ratio. A majority of our assets serve as collateral under the Credit Facility. The Company pays a quarterly facility fee for the unused portion of the Revolving Facility. The Term Loan is a five-year term loan under which principal payments are due in quarterly installments of \$7.8 million through December 31, 2027 and \$15.6 million thereafter until the balance is due in full at maturity. As of March 31, 2026, the Company had \$928.0 million outstanding under the Revolving Facility and no borrowings on the swing line and stand-by letters of credit.

On March 9, 2026, to provide additional financial flexibility in connection with the ARKA acquisition, the Company amended the Term Loan B to provide for an additional tranche of senior secured term loan (the Term Loan B-2) in an aggregate principal amount of \$800.0 million. The interest rate applicable to the Term Loan B-2 is a floating interest rate that, at the Company's option, equals a base rate or a term SOFR rate plus an applicable margin. The obligations under the Term Loan B-2 are secured by the Company, in each case, subject to customary exceptions that are identical to the guarantees and collateral in respect of the Term Loan B. The Term Loan B-2 is subject to the same customary negative covenants as the Term Loan B. The Term Loan B-2 is a seven-year term loan under which principal payments are due in quarterly installments of \$2.0 million from June 2026 until the balance is due in full at maturity. The Company deferred \$9.1 million of debt issuance costs related to the Term Loan B-2 financing, which are amortized to interest expense over the life of the Term Loan B-2 using the effective interest method.

On March 12, 2026, the Company issued an additional \$500.0 million of its senior unsecured notes (the 2033 Notes-2), which form part of the same series as the Company's 6.375% fixed-rate senior unsecured notes (the 2033 Notes) originally issued in June 2025 and maturing in June 2033. The Company issued the 2033 Notes-2 at a premium and received \$516.5 million in net proceeds, which were used to repay outstanding borrowings under the Revolving Facility. Interest is payable semi-annually, and principal is due in full at maturity, with the first interest payment for the 2033 Notes-2 commencing on June 15, 2026. The terms and subordination of the 2033 Notes-2 are the same as the 2033 Notes. All premiums and debt issuance costs are amortized using the effective interest rate over the life of the loan.

The aggregate maturities of long-term debt as of March 31, 2026 are as follows (dollars in thousands):

Fiscal Year Ending June 30,		
2026	\$	11,688
2027		46,750
2028		62,375
2029		78,000
2030		78,000
Thereafter		4,934,000
Principal amount of long-term debt	\$	<u>5,210,813</u>

As of March 31, 2026, the Company was in compliance with all of its financial covenants related to all long-term debt.

Cash Flow Hedges

The Company periodically uses derivative financial instruments as part of a strategy to manage exposure to market risks associated with interest rate fluctuations. The Company has entered into several floating-to-fixed interest rate swap agreements for a total notional amount of \$900.0 million, which hedge a portion of the Company's floating rate indebtedness. Under these agreements, the Company pays a fixed rate and receives SOFR. The counterparties to all swap agreements are financial institutions.

The Company has designated the swaps as cash flow hedges, which are recorded on the consolidated balance sheets at fair value. Unrealized gains are recognized as assets while unrealized losses are recognized as liabilities. Unrealized gains and losses on derivatives designated as cash flow hedges are reported in other comprehensive income (loss) and reclassified to earnings to interest expense in a manner that matches the timing of the earnings impact of the hedged transactions.

The effect of cash flow hedges on the condensed consolidated statements of operations and comprehensive income for the three and nine months ended March 31, 2026 and 2025 is as follows (in thousands):

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2026	2025	2026	2025
Gain (loss) recognized in other comprehensive income before reclassifications	\$ 2,711	\$ (2,399)	\$ 4,938	\$ (1,057)
Amounts reclassified to earnings from accumulated other comprehensive loss	(1,515)	(3,490)	(6,817)	(14,046)
Other comprehensive income (loss), net of tax	<u>\$ 1,196</u>	<u>\$ (5,889)</u>	<u>\$ (1,879)</u>	<u>\$ (15,103)</u>

Note 9 – Legal Proceedings and Other Commitments and Contingencies

Legal Proceedings

The Company is involved in various claims, lawsuits, and administrative proceedings arising in the normal course of business, none of which, based on current information, are expected to have a material adverse effect on the Company's financial position, results of operations or cash flows.

On November 12, 2024, a jury reached a \$42 million judgment against the Company in an ongoing civil suit alleging that the Company's employees had conspired with the U.S. military, which led to acts of wrongdoing committed by the U.S. military against the plaintiffs. On November 25, 2024, the Company filed a motion for dismissal as a matter of law, enumerating numerous grounds. On January 10, 2025, the motion was denied, and the Company filed a notice of appeal to the U.S. Court of Appeals. The Court of Appeals established a briefing schedule, which concluded on July 25, 2025. The Court of Appeals heard oral argument on September 9, 2025. On March 12, 2026, the Court of Appeals, in a 2-1 decision, affirmed the judgment of the district court against CACI. The Company will file a petition for rehearing or rehearing en banc and asking the Court of Appeals to stay action on that petition pending the Supreme Court's expected decision in *Cisco Systems, Inc. v. Doe*, No. 24-856. The Company is vigorously defending the proceedings and continues to believe that the plaintiffs' position is completely without merit. No amounts have been recognized in our condensed consolidated financial statements.

Government Contracting

Payments to the Company on cost-plus-fee and time-and-materials contracts are subject to adjustment upon audit by the Defense Contract Audit Agency (DCAA) and other government agencies that do not utilize DCAA's services. The DCAA has completed audits of the Company's annual incurred cost proposals through fiscal year 2024. The Company is still negotiating the results of prior years' audits with the respective cognizant contracting officers and believes its reserves for such are adequate. Adjustments that may result from these audits and the audits not yet started are not expected to have a material effect on the Company's financial position, results of operations, or cash flows. Additionally, the DCAA continually reviews the cost accounting and other practices of government contractors, including the Company. In the course of those reviews, cost accounting and other issues may be identified, discussed, and settled.

Note 10 – Earnings Per Share

Earnings per share and the weighted average number of diluted shares are computed as follows (in thousands, except per share data):

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2026	2025	2026	2025
Net income	\$ 130,393	\$ 111,860	\$ 379,058	\$ 341,975
Weighted average number of basic shares outstanding	22,087	22,279	22,054	22,332
Dilutive effect of equity awards	78	104	104	153
Weighted average number of diluted shares outstanding	22,165	22,383	22,158	22,485
Basic earnings per share	\$ 5.90	\$ 5.02	\$ 17.19	\$ 15.31
Diluted earnings per share	\$ 5.88	\$ 5.00	\$ 17.11	\$ 15.21

Share Repurchases

No shares were repurchased during the three and nine months ended March 31, 2026. During the third quarter of fiscal 2025, CACI repurchased 0.4 million shares of its outstanding common stock for \$150.0 million on the open market at an average share price of \$344.35 under the 2023 Repurchase Program. As of March 31, 2026, the total remaining authorization for future common share repurchases under the 2023 Repurchase Program was \$187.3 million.

Note 11 – Income Taxes

The Company's effective income tax rates were 26.2% and 24.8% for the three and nine months ended March 31, 2026, respectively, and 26.0% and 23.0% for the three and nine months ended March 31, 2025, respectively. The effective tax rates for the three and nine months ended March 31, 2026 and 2025 differ from the statutory rate of 21.0% primarily due to state income taxes offset by research and development tax credits.

The Company is subject to income taxes in the U.S. and various foreign jurisdictions. Tax statutes and regulations within each jurisdiction are subject to interpretation and require the application of significant judgment. The Company is currently under examination for fiscal 2019 and 2020 in one state jurisdiction and fiscal 2022 and 2023 in another state. The Company does not expect the resolution of either state examination to have a material impact on its condensed consolidated financial statements.

Note 12 – Business Segments

The Company reports operating results and financial data in two segments: Domestic Operations and International Operations. Domestic Operations provide Expertise and Technology primarily to U.S. federal government agencies. International Operations provide Expertise and Technology primarily to international government and commercial customers.

Segment information for the periods presented is as follows (in thousands):

	Three Months Ended March 31,					
	2026			2025		
	Domestic	International	Total	Domestic	International	Total
Revenues	\$ 2,273,695	\$ 77,307	\$ 2,351,002	\$ 2,105,120	\$ 61,862	\$ 2,166,982
Direct costs	1,519,189	33,980	1,553,169	1,408,562	26,173	1,434,735
Indirect costs and selling expenses	480,520	29,662	510,182	456,671	24,246	480,917
Depreciation and amortization	57,279	1,495	58,774	54,017	944	54,961
Income from operations	216,707	12,170	228,877	185,870	10,499	196,369
Capital expenditures	25,307	1,511	26,818	16,113	127	16,240

	Nine Months Ended March 31,					
	2026			2025		
	Domestic	International	Total	Domestic	International	Total
Revenues	\$ 6,628,722	\$ 230,000	\$ 6,858,722	\$ 6,140,597	\$ 183,083	\$ 6,323,680
Direct costs	4,495,963	99,411	4,595,374	4,175,065	76,319	4,251,384
Indirect costs and selling expenses	1,360,771	87,852	1,448,623	1,312,666	62,858	1,375,524
Depreciation and amortization	162,910	4,194	167,104	136,321	2,943	139,264
Income from operations	609,078	38,543	647,621	516,545	40,963	557,508
Capital expenditures	55,031	4,845	59,876	36,443	1,197	37,640

Asset information by segment is not a key measure of performance.

Note 13 – Fair Value Measurements

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value and categorizes the inputs used in measuring fair value as follows: observable inputs such as quoted prices in active markets (Level 1); inputs other than quoted prices in active markets that are observable, either directly or indirectly, or quoted prices that are not active (Level 2); and unobservable inputs that have little or no market data which requires development of assumptions that market participants would use in pricing the asset or liability (Level 3).

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable, and amounts included in other current assets and current liabilities that meet the definition of a financial instrument approximate fair value because of the short-term nature of these amounts.

The financial instruments measured at fair value on a recurring basis consist of the following (in thousands):

Description of Financial Instrument	Financial Statement Classification	Fair Value Hierarchy	March 31, 2026	June 30, 2025
Interest rate swap agreements	Prepaid expenses and other current assets	Level 2	\$ 1,648	\$ 220
Interest rate swap agreements	Other assets	Level 2	4,715	9,839
Interest rate swap agreements	Other liabilities	Level 2	(321)	(1,503)
Contingent consideration	Other accrued expenses and current liabilities	Level 3	(3,294)	(3,678)
Contingent consideration	Other liabilities	Level 3	(8,238)	(10,017)

The outstanding principal amount of the Company's debt approximates its fair value at March 31, 2026. The fair value of the Company's debt was estimated using Level 2 inputs based on market data on companies with a corporate rating similar to the Company's that have recently priced credit facilities.

The Company uses interest rate swap agreements to manage its interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves.

The Company recognizes contingent consideration liabilities in connection with certain acquisitions, representing potential earnout payments and other contingent payments. The fair values of these liabilities are determined using a valuation model, which includes an assessment of the most likely outcome, assumptions related to projected earnings of the acquired company, and the application of a discount rate, when applicable. Fair value of contingent consideration is reassessed quarterly, including an analysis of the significant inputs used in the evaluation, as well as the accretion of the discount. The fair value of contingent consideration decreased \$1.1 million and \$8.6 million for the nine months ended March 31, 2026 and 2025, respectively. Changes in the fair value of contingent consideration are reflected within indirect costs and selling expenses.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations is provided to enhance the understanding of, and should be read together with, our unaudited condensed consolidated financial statements and the notes to those statements that appear elsewhere in this Quarterly Report on Form 10-Q.

Information Relating to Forward-Looking Statements

There are statements made herein that do not address historical facts and, therefore, could be interpreted to be forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such statements are subject to risk factors that could cause actual results to be materially different from anticipated results. These risk factors include, but are not limited to, the following:

- our reliance on United States (U.S.) government contracts, which includes general risk around the government contract procurement process (such as bid protest, small business set asides, loss of work due to organizational conflicts of interest, etc.) and termination risks;
- significant delays or reductions in appropriations for our programs and broader changes in U.S. government funding and spending patterns;
- legislation that amends or changes discretionary spending levels or budget priorities, such as for homeland security;
- legal, regulatory, and political change from successive presidential administrations that could result in economic uncertainty;
- changes in U.S. federal agencies, current agreements with other nations, foreign events, or any other events which may affect the global economy;
- the results of government audits and reviews conducted by the Defense Contract Audit Agency, the Defense Contract Management Agency, or other governmental entities with cognizant oversight;
- competitive factors such as pricing pressures and/or competition to hire and retain employees (particularly those with security clearances);
- failure to achieve contract awards in connection with re-competes for present business and/or competition for new business;
- regional and national economic conditions in the U.S. and globally, including but not limited to: terrorist activities or war, changes in interest rates, currency fluctuations, significant fluctuations in the equity markets, and market speculation regarding our continued independence;
- our ability to meet contractual performance obligations, including technologically complex obligations dependent on factors not wholly within our control;
- limited access to certain facilities required for us to perform our work;
- changes in tax law, the interpretation of associated rules and regulations, or any other events impacting our effective tax rate;
- changes in technology;
- the potential impact of the announcement or consummation of a proposed transaction and our ability to successfully integrate the operations of our recent and any future acquisitions;
- our ability to achieve the objectives of near term or long-term business plans; and
- the effects of health epidemics, pandemics and similar outbreaks may have material adverse effects on our business, financial position, results of operations and/or cash flows.

The above non-inclusive list of risk factors may impact the forward-looking statements contained in this Quarterly Report on Form 10-Q. In addition, other risk factors include, but are not limited to, those described in "Item 1A. Risk Factors" within our Annual Report on Form 10-K. The forward-looking statements contained in this Quarterly Report on Form 10-Q are as of the date of its filing.

Overview

The Company provides distinctive Expertise and differentiated Technology to customers in support of national security.

- **Expertise** – CACI delivers talent with the specific technical and functional knowledge to support agency operations. Examples include individuals with talents such as software development, data and business analysis, operations support, naval architecture, engineering, life cycle support, intelligence and special operations support, and network exploitation analysis.
- **Technology** – CACI provides technology that addresses our customers' most challenging needs. This includes agile software development using open modern architectures and DevSecOps; advanced data platforms, applications, and analytics augmented by Artificial Intelligence (AI), Enterprise Resource Planning systems, electromagnetic spectrum capabilities, space-based sensors and ground site processors, photonics, and network modernization. CACI invests ahead of customer need with research and development to create unique and differentiated technology addressing critical national security needs.

Budgetary Environment

We carefully follow federal budget, legislative and contracting trends and activities and evolve our strategies to take these into consideration. While future levels of defense and non-defense spending may vary and are difficult to project, we believe that there continues to be bipartisan support for defense and national security-related spending, particularly given the heightened current global threat environment.

While we view the budget environment as constructive and believe there is bipartisan support for continued investment in the areas of defense and national security, it is uncertain when (and if) in any particular government fiscal year (GFY) that appropriations bills will be passed. During those periods of time when appropriations bills have not been passed and signed into law, government agencies operate under a continuing resolution (CR), a temporary measure that typically allows the government to continue operations at prior year funding levels.

Depending on their scope, duration, and other factors, CRs can negatively impact our business due to delays in new program starts, delays in contract award decisions, and other factors. When a CR expires, unless appropriations bills have been passed by Congress and signed by the President, or a new CR is passed and signed into law, the government must cease operations, or shutdown, except in certain emergency situations or when the law authorizes continued activity. We continuously review our operations in an attempt to identify programs potentially at risk from CRs or shutdowns so that we can consider appropriate contingency plans.

On May 2, 2025, President Trump submitted the GFY26 Presidential Budget Request (PBR) to Congress, which held defense spending at the GFY25 enacted level (a full-year CR) of \$893 billion. On July 4, 2025, President Trump signed the One Big Beautiful Bill Act (OBBBA), which provides additional funding above and beyond the PBR. The OBBBA is a reconciliation bill, which is separate from the usual government funding legislation passed by Congress. The OBBBA provides immediate funding for specified parts of the government, including approximately \$156 billion in defense funding (including \$25 billion for the Golden Dome initiative). In addition, the OBBBA provides approximately \$170 billion for border security and immigration. Since this is direct funding authorized by reconciliation outside the normal budget process, these funds will be available in GFY26 and beyond whether normal appropriations or a CR is passed, or even in the event of a shutdown.

On October 1, 2025, the U.S. government entered a shutdown. On November 12, 2025, President Trump signed a CR ending the government shutdown and restoring operations across all federal agencies. The CR extended funding for most of the federal government at GFY25 levels until midnight on January 30, 2026. A partial shutdown occurred following January 30, 2026, and on February 3, 2026, President Trump signed five of the six remaining GFY26 full year appropriations bills, as well as a two-week CR for the Department of Homeland Security. The defense appropriations bill was passed, providing full year funding for the Department of Defense (DoD) with a topline of \$838.7 billion, approximately \$8.4 billion above the President's defense budget request for GFY26. On February 14, 2026, the CR funding the Department of Homeland Security ended, and the department entered a shutdown. While DHS currently remains in a shutdown, portions of the department's operations have continued due to funding from the OBBBA.

Market Environment

We provide Expertise and Technology to government customers. We believe that the total addressable market for our offerings is sufficient to support the Company's plans and is expected to continue to grow over the next several years. Approximately 78% of our revenue comes from DoD and Intelligence Community (IC) customers, with additional revenue coming from federal civilian agencies and commercial and other customers.

We continue to align the Company's capabilities with well-funded budget priorities and take steps to maintain a competitive cost structure in line with our expectations of future business opportunities. In light of these actions, as well as the budgetary environment discussed above, we believe we are well positioned to continue to win new business in our large addressable market. We believe that the following trends will influence the U.S. government's spending in our addressable market:

- A stable-to-higher U.S. government budget environment, particularly in national security-related areas (defense, intelligence, and border security);
- Increased focus on cyber, space, and the electromagnetic spectrum as key domains for national security;
- Increased investments in advanced technologies (e.g., AI), particularly software-based technologies;
- Increased spending on network and application modernization and enhancements to cyber security posture;
- Increasing focus on near-peer competitors and other nation state threats;
- Increasing focus on application of technologies to defend the homeland;
- Continued focus on counterterrorism, counterintelligence, and counter proliferation as key U.S. security concerns; and
- Increased demand for innovation and speed of delivery.

We believe that our customers' use of lowest price/technically acceptable procurements, which contributed to pricing pressures in past years, has moderated, though price still remains an important factor in procurements. We also continue to see protests of major contract awards and delays in U.S. government procurement activities. In addition, many of our federal government contracts require us to employ personnel with security clearances, specific levels of education, and specific past work experience. Depending on the level of clearance, security clearances can be difficult and time-consuming to obtain and competition for skilled personnel in the industry is intense. Additional factors that could affect U.S. government spending in our addressable market include changes in set-asides for small businesses and budgetary priorities.

Results of Operations for the Three and Nine Months Ended March 31, 2026 and 2025

Our results of operations were as follows (dollars in thousands):

	Three Months Ended March 31,				Nine Months Ended March 31,			
	2026	2025	Change		2026	2025	Change	
Revenues	\$ 2,351,002	\$ 2,166,982	\$ 184,020	8.5 %	\$ 6,858,722	\$ 6,323,680	\$ 535,042	8.5 %
Costs of revenues:								
Direct costs	1,553,169	1,434,735	118,434	8.3	4,595,374	4,251,384	343,990	8.1
Indirect costs and selling expenses	510,182	480,917	29,265	6.1	1,448,623	1,375,524	73,099	5.3
Depreciation and amortization	58,774	54,961	3,813	6.9	167,104	139,264	27,840	20.0
Total costs of revenues	2,122,125	1,970,613	151,512	7.7	6,211,101	5,766,172	444,929	7.7
Income from operations	228,877	196,369	32,508	16.6	647,621	557,508	90,113	16.2
Interest expense and other, net	52,267	45,117	7,150	15.8	143,390	113,153	30,237	26.7
Income before income taxes	176,610	151,252	25,358	16.8	504,231	444,355	59,876	13.5
Income taxes	46,217	39,392	6,825	17.3	125,173	102,380	22,793	22.3
Net income	\$ 130,393	\$ 111,860	\$ 18,533	16.6 %	\$ 379,058	\$ 341,975	\$ 37,083	10.8 %

Revenues. The increase in revenues for the three and nine months ended March 31, 2026, was partially attributable to organic growth of 6.8% and 5.6%, respectively, which included new contract awards and growth on existing programs.

The following table summarizes revenues by customer type with related percentages of revenues for the three and nine months ended March 31, 2026 and 2025, respectively (dollars in thousands):

	Three Months Ended March 31,				Nine Months Ended March 31,			
	2026	2025	Change		2026	2025	Change	
DoD	\$ 1,295,628	\$ 1,180,820	\$ 114,808	9.7 %	\$ 3,627,406	\$ 3,387,095	\$ 240,311	7.1 %
IC	582,235	552,796	29,439	5.3	1,717,704	1,614,883	102,821	6.4
Federal civilian agencies	373,582	350,044	23,538	6.7	1,223,944	1,068,005	155,939	14.6
Commercial and other	99,557	83,322	16,235	19.5	289,668	253,697	35,971	14.2
Total	\$ 2,351,002	\$ 2,166,982	\$ 184,020	8.5 %	\$ 6,858,722	\$ 6,323,680	\$ 535,042	8.5 %

- DoD revenues include Expertise and Technology provided to various DoD customers, excluding IC.
- IC revenues include Expertise and Technology provided to the 18 intelligence customers defined as the IC by the Office of the Director of National Intelligence.
- Federal civilian agencies revenues include Expertise and Technology provided to non-DoD and non-IC agencies and departments of the U.S. federal government, including the Departments of Homeland Security, Justice, Agriculture, Health and Human Services, and State.
- Commercial and other revenues primarily include Expertise and Technology provided to U.S. state and local governments, commercial customers, and certain foreign governments and agencies through our International Operations.

Direct Costs. Direct costs include direct labor, subcontractor costs, materials, and other direct costs. The increase in direct costs for the three and nine months ended March 31, 2026, compared to the prior year periods, was primarily attributable to the increase in revenues. As a percentage of revenue, direct costs were 66.1% and 67.0% for the three and nine months ended March 31, 2026, respectively, and 66.2% and 67.2% for the three and nine months ended March 31, 2025, respectively.

Indirect Costs and Selling Expenses. The increase in indirect costs and selling expenses for the three months ended March 31, 2026, compared to the prior year period, was primarily attributable to an increase in acquisition related expenses. The increase in indirect costs and selling expenses for the nine months ended March 31, 2026, compared to the prior year period, was primarily attributable to increases in fringe benefit expenses and overhead costs associated with a larger labor base, acquisition-related expenses, and other indirect costs. As a percentage of revenue, indirect costs and selling expenses were 21.7% and 21.1% for the three and nine months ended March 31, 2026, respectively, and 22.2% and 21.8% for the three and nine months ended March 31, 2025, respectively.

Depreciation and Amortization. The increase in depreciation and amortization for the three months ended March 31, 2026, compared to the prior year period, was due to the amortization of intangible assets acquired in the third quarter of fiscal 2026. The increase in depreciation and amortization for the nine months ended March 31, 2026, compared to the prior year period, was due to the timing of intangible assets acquired in fiscal 2025.

Interest Expense and Other, Net. The increase in interest expense and other, net for the three and nine months ended March 31, 2026, compared to the prior year periods, was primarily due to higher outstanding debt balances in the current year resulting from borrowings used to finance acquisitions completed in both periods.

Income Tax Expense. The Company's effective income tax rates were 26.2% and 24.8% for the three and nine months ended March 31, 2026, respectively, and 26.0% and 23.0% for the three and nine months ended March 31, 2025, respectively. The effective tax rates for the three and nine months ended March 31, 2026 and 2025 differ from the statutory rate of 21.0% primarily due to state income taxes offset by research and development tax credits.

Contract Backlog

The Company's backlog represents the value on existing contracts that has the potential to be recognized as revenues as work is performed. The Company includes unexercised option years in its backlog and excludes the value of task orders that may be awarded under multiple award indefinite delivery/indefinite quantity vehicles until such task orders are issued.

The Company's backlog as of the period end is either funded or unfunded:

- Funded backlog represents contract value for which funding has been appropriated less revenues previously recognized on these contracts.
- Unfunded backlog represents estimated values that have the potential to be recognized as revenue from executed contracts for which funding has not been appropriated and unexercised priced contract options.

As of March 31, 2026, the Company had total backlog of \$33.4 billion, compared to \$31.4 billion a year ago, an increase of 6.4%. Funded backlog as of March 31, 2026 was \$5.0 billion. The total backlog consists of remaining performance obligations (see Note 5) plus unexercised options.

There is no assurance that all funded or potential contract value will be recognized as revenue in the future. The Company continues to monitor its backlog, which is subject to changes due to execution of new contracts, contract modifications or extensions, government deobligations, early terminations, or other factors. Based on this analysis, an adjustment to the period end balance may be required.

Liquidity and Capital Resources

Existing cash and cash equivalents and cash generated by operations are our primary sources of liquidity, as well as sales of receivables under our Master Accounts Receivable Purchase Agreement (MARPA) and available borrowings under our revolving credit facility (the Revolving Facility), which permits renewable borrowings of up to \$2,000.0 million. The Revolving Facility also has sub-facilities of \$150.0 million for same-day swing line loan borrowings and \$25.0 million for stand-by letters of credit.

The Company has a \$3,250.0 million senior secured credit facility (the Credit Facility), which consists of the Revolving Facility and a \$1,250.0 million term loan (the Term Loan). As of March 31, 2026, the Company had \$1,072.0 million of undrawn capacity under the Revolving Facility and no borrowings on the swing line and stand-by letters of credit.

A summary of the change in cash and cash equivalents is presented below (in thousands):

	Nine Months Ended March 31,	
	2026	2025
Net cash provided by operating activities	\$ 508,444	\$ 391,027
Net cash used in investing activities	(2,685,142)	(1,677,305)
Net cash provided by financing activities	2,230,319	1,374,474
Effect of exchange rate changes on cash and cash equivalents	(1,806)	1,740
Net change in cash and cash equivalents	\$ 51,815	\$ 89,936

Net cash provided by operating activities increased by \$117.4 million for the nine months ended March 31, 2026, compared to the nine months ended March 31, 2025, primarily due to higher net income and the deduction of domestic research and development costs pursuant to tax provisions enacted by the OBBBA.

Net cash used in investing activities increased by \$1,007.8 million for the nine months ended March 31, 2026, compared to the nine months ended March 31, 2025, primarily due to higher cash used for acquisitions in the current year.

Net cash provided by financing activities increased by \$855.8 million for the nine months ended March 31, 2026, compared to the nine months ended March 31, 2025, primarily due to an increase in net borrowings under the Credit Facility, the Term Loan B-2, and the 2033 Notes-2 offset by a decrease in stock repurchase activity.

We believe that the combination of cash and cash equivalents on hand, internally generated funds, and available bank borrowings will provide the required liquidity and capital resources necessary to fund on-going operations, customary capital expenditures, debt service obligations, and other working capital requirements over the next twelve months. We may in the future seek to borrow additional amounts under existing debt instruments or new debt instruments. Over the longer term, our ability to generate sufficient cash flows from operations necessary to fulfill our long-term debt obligations and any other indebtedness we may incur will depend on our future financial performance which will be affected by many factors outside of our control, including current worldwide economic conditions and financial market conditions.

Critical Accounting Policies

There have been no significant changes to the Company's critical accounting policies as disclosed in our Annual Report on Form 10-K for the year ended June 30, 2025.

Off-Balance Sheet Arrangements and Contractual Obligations

The Company has no material off-balance sheet financing arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The interest rates on the Credit Facility, the Term Loan B, and the Term Loan B-2 are affected by changes in market interest rates. The Company has the ability to manage these fluctuations in part through interest rate hedging alternatives in the form of interest rate swaps. The Company has entered into floating-to-fixed interest rate swap agreements for an aggregate notional amount of \$900.0 million related to a portion of its floating rate indebtedness. All remaining balances under the Credit Facility, the Term Loan B, and the Term Loan B-2, and any additional amounts that may be borrowed under the Revolving Facility are currently subject to interest rate fluctuations. With every one percent fluctuation in the applicable interest rate, interest expense on the Company's variable rate debt for the nine months ended March 31, 2026 would have fluctuated by approximately \$8.9 million.

Approximately 3.4% and 2.9% of the Company's total revenues during the nine months ended March 31, 2026 and 2025, respectively, were generated from our International Operations. The Company's practice in International Operations is to negotiate contracts in the same currency in which the predominant expenses are incurred, thereby mitigating the exposure to foreign currency exchange rate fluctuations. To the extent that it is not feasible to negotiate contracts, there is a risk that profits may be adversely affected by such foreign currency exchange rate fluctuations. As of March 31, 2026, the Company held a combination of pounds sterling and euros in the U.K. and the Netherlands equivalent to approximately \$65.9 million. Although these balances are generally available to fund ordinary business operations without legal or other restrictions, a significant portion is not immediately available to fund U.S. operations unless repatriated. The Company's intention is to reinvest earnings from our foreign subsidiaries. This allows the Company to better utilize cash resources on behalf of our foreign subsidiaries, thereby mitigating foreign currency conversion risks.

Item 4. Controls and Procedures

As of March 31, 2026, the Company's management, under the supervision and with the participation of the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e), under the Securities Exchange Act of 1934, as amended).

Based upon that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were operating and effective at March 31, 2026.

The Company reports that no changes in its internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act) occurred during the three months ended March 31, 2026.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

Al Shimari, et al. v. L-3 Services, Inc. et al.

Reference is made to Part I, Item 3, Legal Proceedings in the Registrant's Annual Report on Form 10-K for the year ended June 30, 2025 for the most recently filed information concerning the suit filed in the United States District Court for the Southern District of Ohio. The lawsuit names CACI International Inc, CACI Premier Technology, Inc. and former CACI employee Timothy Dugan as Defendants, along with L-3 Services, Inc. Plaintiffs seek, inter alia, compensatory damages, punitive damages, and attorney's fees. On March 8, 2013, the District Court granted a motion to dismiss CACI International Inc from the case, leaving CACI Premier Technology, Inc., as the sole Defendant.

In 2015, Defendant CACI Premier Technology, Inc. moved to dismiss Plaintiffs' claims based upon the political question doctrine. On June 18, 2015, the Court issued an Order granting Defendant CACI Premier Technology, Inc.'s motion to dismiss, and on June 26, 2015 entered a final judgment in favor of Defendant CACI Premier Technology, Inc.

On July 23, 2015, Plaintiffs filed a Notice of Appeal of the district court's June 2015 decision. On October 21, 2016, the Court of Appeals vacated and remanded the District Court's judgment with instructions for the District Court to make further determinations regarding the political question doctrine. That same day, the District Court (Lee, J.) entered an Order recusing himself from further participation in the action. Subsequently, a new District Court judge (Brinkema, J.) was assigned to the action. The District Court conducted an initial status conference on December 16, 2016. On June 9, 2017, the District Court dismissed Plaintiff Rashid without prejudice from the action based upon his inability to participate. On July 19, 2017, CACI Premier Technology, Inc. filed a motion to dismiss the action on numerous legal grounds. The Court held a hearing on that motion on September 22, 2017, and denied the motion pending issuance of a written decision. On January 17, 2018, CACI filed a third-party complaint naming the United States and John Does 1-60, asserting claims for contribution, indemnification, exoneration and breach of contract in the event that CACI Premier Technology, Inc. is held liable to Plaintiffs, as Plaintiffs are seeking to hold CACI Premier Technology, Inc. liable on a co-conspirator theory and a theory of aiding and abetting. On February 21, 2018, the District Court issued a Memorandum Opinion and Order dismissing with prejudice the claims of direct abuse of the Plaintiffs by CACI personnel (Counts 1, 4 and 7 of the Third Amended Complaint) in response to the motion to dismiss filed by CACI on July 19, 2017, and denying the balance of the motion to dismiss. On March 14, 2018, the United States filed a motion to dismiss the third party complaint or, in the alternative, for summary judgment. On April 13, 2018, the Court held a hearing on the United States' motion to dismiss and took the matter under advisement. The Court subsequently stayed the part of the action against John Does 1-60.

On April 13, 2018, the Plaintiffs filed a motion to reinstate Plaintiff Rashid, which CACI opposed. On April 20, 2018, the District Court granted that motion subject to Plaintiff Rashid appearing for a deposition. On May 21, 2018, CACI filed a motion to dismiss for lack of subject matter jurisdiction based on a recent Supreme Court decision. On June 25, 2018, the District Court denied that motion. On October 25, 2018, the District Court conducted a pre-trial conference at which the District Court addressed remaining discovery matters, the scheduling for dispositive motions that CACI intends to file, and set a date of April 23, 2019 for trial, if needed, to start. On December 20, 2018, CACI filed a motion for summary judgment and a motion to dismiss based on the state secrets privilege. On January 3, 2019, CACI filed a motion to dismiss for lack of subject matter jurisdiction. On February 15, 2019, the United States filed a motion for summary judgment with respect to CACI's third-party complaint. On February 27, 2019, the District Court denied CACI's motion for summary judgment and motions to dismiss for lack of subject matter jurisdiction and on the state secrets privilege. On February 28, 2019, CACI filed a motion seeking dismissal on grounds of derivative sovereign immunity.

On March 22, 2019, the District Court denied the United States' motion to dismiss on grounds of sovereign immunity and CACI's motion to dismiss on grounds of derivative sovereign immunity. The District Court also granted the United States' motion for summary judgment with respect to CACI's third-party complaint. On March 26, 2019, CACI filed a Notice of Appeal of the District Court's March 22, 2019 decision. On April 2, 2019, the U.S. Court of Appeals for the Fourth Circuit issued an Accelerated Briefing Order for the appeal. On April 3, 2019, the District Court issued an Order cancelling the trial schedule and holding matters in abeyance pending disposition of the appeal. On July 10, 2019, the U.S. Court of Appeals for the Fourth Circuit heard oral argument in Spartanburg, South Carolina on CACI's appeal. On August 23, 2019, the Court of Appeals issued an unpublished opinion dismissing the appeal. A majority of the panel that heard the appeal held that rulings denying derivative sovereign immunity are not immediately appealable even where they present pure questions of law. The panel also ruled, in the alternative, that even if such a ruling was immediately appealable, review was barred because there remained disputes of material fact with respect to CACI's derivative sovereign immunity defenses. The Court of Appeals subsequently denied CACI's request for rehearing *en banc*. CACI then filed a motion to stay issuance of the mandate pending the filing of a petition for a writ of *certiorari*. On October 11, 2019, the Court of Appeals, by a 2-1 vote, denied the motion to stay issuance of the mandate. CACI then filed an application to stay issuance of the mandate with Chief Justice Roberts in his capacity as Circuit Justice for the U.S. Court of Appeals for the Fourth Circuit. After CACI filed that application, the Court of Appeals issued the mandate on October 21, 2019, returning jurisdiction to the district court. On October 23, Chief Justice Roberts denied the stay application "without prejudice to applicants filing a new application after seeking relief in the district court." CACI then filed a motion in the district court to stay the action pending filing and disposition of a petition for a writ of *certiorari*. On November 1, 2019, the district court granted CACI's motion and issued an Order staying the action until further order of the court. On November 15, 2019, CACI filed a petition for a writ of *certiorari* in the U.S. Supreme Court. On January 27, 2020, the U.S. Supreme Court issued an Order inviting the Solicitor General to file a brief in the case expressing the views of the United States. On August 26, 2020, the Solicitor General filed a brief recommending that CACI's petition for a writ of *certiorari* be held pending the Supreme Court's disposition of *Nestle USA, Inc. v. Doe*, cert. granted, No. 19-416 (July 2, 2020), and *Cargill, Inc. v. Doe*, cert. granted, No. 19-453 (July 2, 2020). The United States' brief recommended that if the Supreme Court's decisions in *Nestle* and *Cargill* did not effectively eliminate the claims in *Al Shimari*, then the Supreme Court should grant CACI's petition for a writ of *certiorari*. On June 17, 2021, the Supreme Court issued its decision in the *Nestle* and *Cargill* cases, holding that the allegations of domestic conduct in the cases were general corporate activity insufficient to establish subject matter jurisdiction. As a result, the Supreme Court remanded the cases for dismissal. On June 28, 2021, the Supreme Court denied CACI's petition for a writ of *certiorari*.

On July 16, 2021, the District Court granted CACI's consent motion to lift the stay of the action, and ordered the parties to submit status reports to the District Court by August 4, 2021. On July 23, 2021, CACI filed a motion to dismiss the action for lack of subject matter jurisdiction based on, among other things, the recent Supreme Court decision in the *Nestle* and *Cargill* cases. On August 4, 2021, the parties submitted status reports to the District Court.

On September 10, 2021, the Court conducted a hearing on CACI's motion to dismiss for lack of subject matter jurisdiction and took the motion under advisement. The Court issued an Order directing the plaintiffs to provide the Court with a calculation of specific damages sought by each plaintiff. In response, plaintiffs advised the Court that, if the case is tried, they do not intend to request a specific amount of damages.

On October 1, 2021, the plaintiffs filed an estimate of compensatory damages between \$6.0 million and \$9.0 million (\$2.0 million to \$3.0 million per plaintiff) and an estimate of punitive damages between \$23.5 million and \$64.0 million.

On July 18, 2022, CACI filed a second motion to dismiss for lack of subject matter jurisdiction based on recent decisions by the Supreme Court. On September 16, 2022, the District Court conducted a hearing on that motion and took the matter under advisement.

On July 31, 2023, the District Court denied the July 23, 2021 motion to dismiss and the July 18, 2022 motion to dismiss. On September 7, 2023, CACI filed a petition for a writ of mandamus with the U.S. Court of Appeals for the Fourth Circuit, asserting that the District Court had disregarded binding precedent and asking the Court of Appeals to dismiss the action for lack of subject matter jurisdiction. On September 13, 2023, the Court of Appeals issued an Order requiring the plaintiffs to respond to the petition. On September 25, 2023, the plaintiffs filed their response to CACI's petition, opposing the relief sought. On October 2, 2023, the District Court entered an Order setting the case for a jury trial on April 15, 2024. On November 2, 2023, the Court of Appeals denied without opinion the petition for a writ of mandamus. Trial commenced on April 15, 2024. During trial, the plaintiffs abandoned their claim of war crimes. On May 9, 2024, the jury notified the District Court that it was deadlocked and could not reach a unanimous verdict on any claim. The District Court then dismissed the jury and declared a mistrial.

On May 16, 2024, plaintiffs filed a motion for a new trial, and CACI filed a motion for judgment as a matter of law. On June 14, 2024, the District Court granted plaintiffs' motion, denied CACI's motion, and proposed dates in October 2024 for a new trial. The District Court subsequently scheduled the new trial to start on October 30, 2024. A second trial commenced on October 30, 2024. At the conclusion of the presentation of the evidence, the District Court granted CACI's motion to dismiss the aiding and abetting claims for lack of evidence. On November 12, 2024, the jury found for the plaintiffs on the sole claim remaining in the case, that CACI personnel had conspired with the military for the military to abuse the plaintiffs. The jury awarded compensatory damages of \$3 million per plaintiff and punitive damages of \$11 million per plaintiff. After the verdict was returned, the District Court disclosed a note sent by the jury on November 8, 2024, not at the time disclosed to counsel, asking if the jury could award punitive damages to a non-profit human rights organization, rather than to plaintiffs, dealing with abuses arising from Abu Ghraib.

On November 25, 2024, CACI filed a motion for judgment as a matter of law, asserting numerous grounds for setting aside the jury verdict and dismissing the action. On January 10, 2025, the District Court conducted a hearing on that motion and denied the motion. On January 10, 2025, CACI filed a Notice of Appeal to the U.S. Court of Appeals for the Fourth Circuit. The Court of Appeals established a briefing schedule, which concluded on July 25, 2025. The Court of Appeals heard oral argument on September 9, 2025. On March 12, 2026, the Court of Appeals, in a 2-1 decision, affirmed the judgment of the district court against CACI. The Company will file a petition for rehearing or rehearing en banc and asking the Court of Appeals to stay action on that petition pending the Supreme Court's expected decision in *Cisco Systems, Inc. v. Doe*, No. 24-856.

Abbass, et al v. CACI Premier Technology, Inc. and CACI International Inc, Case No. 1:13CV1186-LMB/JFA (EDVA)

Reference is made to Part I, Item 3, Legal Proceedings in the Registrant's Annual Report on Form 10-K for the year ended June 30, 2025 for the most recently filed information concerning the suit filed in the United States District Court for the Eastern District of Virginia. The lawsuit names CACI International Inc and CACI Premier Technology, Inc. as Defendants. Plaintiffs seeks, inter alia, compensatory damages, punitive damages, and attorney's fees.

Since the filing of Registrant's report described above, the case remains stayed pending the outcome in the *Al Shimari* appeal.

We are vigorously defending the above-described legal proceedings, and based on our present knowledge of the facts, believe the lawsuits are completely without merit.

On September 13, 2021, the Court issued an Order directing plaintiffs' counsel to file a report advising the Court of the status of each plaintiff, and indicating that any plaintiff whom counsel is unable to contact may be dismissed from the action. On October 4, 2021, plaintiffs' counsel filed a memorandum stating that the action was brought by forty-six plaintiffs, and that plaintiffs' counsel was in contact with many of the plaintiffs but needed additional time to provide the Court with a final report. On October 4, 2021, the Court entered an Order extending plaintiffs' response to October 25, 2021. On October 25, 2021, plaintiffs' counsel filed a memorandum stating that he was in communication with 46 plaintiffs or their representatives.

On June 21, 2024, CACI filed a motion to lift the stay. Plaintiffs filed an opposition to that motion on June 26, 2024. On June 28, 2024, the District Court denied CACI's motion without prejudice. CACI subsequently filed a Notice of Appeal to the U.S. Court of Appeals for the Fourth Circuit, as well as a Petition for a Writ of Mandamus in the Court of Appeals, asking the Court of Appeals to issue an order requiring the District Court to lift the stay. The Court of Appeals denied the petition for a Writ of Mandamus, but subsequently issued a briefing schedule for CACI's appeal.

Briefing on the appeal concluded on December 6, 2024. On January 10, 2025, the District Court indicated that it will not activate the *Abbass* action while the *Al Shimari* action is on appeal. As a result of that representation, on January 13, 2025, CACI moved to dismiss the appeal, a motion that the Plaintiffs did not oppose. On January 14, 2025, the Court of Appeals granted that motion and dismissed the appeal.

Item 1A. Risk Factors

Reference is made to Part I, Item 1A, Risk Factors, in the Registrant's Annual Report on Form 10-K for the year ended June 30, 2025. There have been no material changes from the risk factors described in that report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides certain information with respect to our purchases of shares of CACI International Inc's common stock:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
January 2026	6,168	\$ 600.16	6,168	424,066
February 2026	—	—	—	424,066
March 2026	—	—	—	424,066
Total	6,168	\$ 600.16	6,168	

⁽¹⁾ Number of shares determined based on the closing price of \$543.87 as of March 31, 2026

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

Not applicable

Item 5. Other Information**Disclosure of Trading Arrangements**

During the fiscal quarter ended March 31, 2026, no directors or officers adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as those terms are defined in Regulation S-K, Item 408.

Section 302 Certification

I, John S. Mengucci, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of CACI International Inc;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent function):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
