Demand for Mission Critical Networks

Public safety agencies continue to prioritize modernizing their core communications platforms built to last a decade or more. During the quarter, we won three large awards for our next generation P25 infrastructure, including a \$52 million order from a U.S. federal customer, a \$34 million order with a state and local customer in the southeast region and a \$22 million order for St. Louis County, MO. These deals demonstrate the continuing customer demand for our latest D-Series infrastructure and provide a strong foundation for future software and services growth.

1 Inclusive of a \$60M (pre-tax) benefit, or \$0.25 per share, related to the International Economic Emergency Powers Act (“IEEPA”) refunds recorded during the quarter.

2 Non-GAAP financial information excludes the after-tax impact of approximately \$1.08 per diluted share related to highlighted items, share-based compensation expense and intangible assets amortization expense.
