Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

Accordia Life and Annuity Company (“Accordia” or “the Company”) is a stock life insurance company organized under the laws of the State of Iowa, and is a wholly-owned subsidiary of Commonwealth Annuity and Life Insurance Company (“Commonwealth Annuity”) effective September 30, 2013.

The accompanying financial statements of the Company have been prepared in conformity with the accounting practices prescribed by the National Association of Insurance Commissioners (“NAIC”) and the State of Iowa.

The Insurance Division, Department of Commerce, of the State of Iowa (“IAID”) recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Iowa Insurance Law. The NAIC’s Accounting Practices & Procedures Manual (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Iowa. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

In 2009, the Commissioner of IAID promulgated Iowa Administrative Code (IAC) Section 191-97, *Accounting for Certain Derivative Instruments Used to Hedge the Growth in Interest Credited for Indexed Insurance Products and Accounting for the Indexed Insurance Products Reserve*, which prescribes that an insurer may elect (i) to use an amortized cost method to account for certain derivative instruments, such as call options, purchased to hedge the growth in interest credited to the customer on indexed insurance products and (ii) to utilize an indexed annuity reserve calculation methodology under which call options associated with the current index interest crediting term are valued at zero. The Company has elected to apply IAC Section 191-97 to its over the counter (OTC) call options. As a result, the Company’s net income from operations decreased by \$6,040,697 for the period ended December 31, 2025 and increased by \$31,199,343 for the period ended December 31, 2024, respectively and the Company’s statutory surplus decreased by \$219,241,367 and decreased by \$213,200,670 as of December 31, 2025 and December 31, 2024, respectively.

A reconciliation of the Company’s net income (loss) and statutory surplus between practices prescribed by the State of Iowa and NAIC SAP is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principals requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium paying period of the related policies. Annuity considerations are recognized as revenue when received. Reinsurance treaties that do not meet the definition of risk transfer are recorded under the rules of deposit accounting as prescribed in Statement of Statutory Accounting Principles (“SSAP”) No. 61. - *Life, Deposit-Type and Accident and Health Reinsurance* and are carried as a deposit liability, net income and expenses are shown in the aggregate write in line on the summary of operations. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies, as applicable:

- (1) Short-term investments that have original maturities of greater than three months and less than twelve months at date of purchase are carried at amortized cost, which approximates fair value.
- (2) Bonds not backed by loans are stated at amortized cost or fair value, using the modified scientific method, in accordance with the NAIC *Purposes and Procedures* Manual of the Capital Markets and Investment Analysis Office. The Company holds certain SVO designated securities and has not elected to use a systematic value measurement method to value those securities, but carries them at fair value. The Company has one investment that is using the systematic value approach.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

- (3) Common stocks are carried at fair value, except investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 10% or more are carried on an equity basis.
- (4) Preferred stocks are carried at amortized cost or fair value, in accordance with the NAIC *Purposes and Procedures* Manual of the Capital Markets and Investment Analysis Office.
- (5) Mortgage loans are stated at amortized cost or fair value, in accordance with the NAIC *Purposes and Procedures* Manual of the Capital Markets and Investment Analysis Office.
- (6) Asset-backed securities are stated at amortized cost using the interest method including anticipated prepayments at the date of purchase in accordance with SSAP 43 *Asset-Backed Securities*. Changes in prepayment speeds and estimated cash flows from the original purchase assumptions are evaluated quarterly and are accounted for on the prospective basis.
- (7) The Company carries its insurance subsidiaries as an equity investment in its statutory surplus. In accordance with SSAP No. 97 - *Investments in Subsidiary, Controlled, and Affiliated Entities*, dividends or distributions received from an investee shall be recognized in investment income when declared to the extent that they are not in excess of the undistributed accumulated earnings attributable to the investee. Dividends or distributions declared in excess of the undistributed accumulated earnings attributable to the investee shall reduce the carrying amount of the investment.
- (8) The Company has ownership interests in limited partnerships, joint ventures, or limited liability entities. The Company carries these interests based upon their proportionate share of the underlying GAAP equity of the investment.
- (9) Certain derivatives are carried at amortized cost as described above in Note 1. A. All other derivative instruments are generally accounted for at fair value with changes in fair value recorded as unrealized gains or losses until realized at closing of the contract.
- (10) The Company has no accident and health business and therefore no premium deficiency calculation.
- (11) The Company has no accident and health contracts.
- (12) The minimum threshold for asset expenditure is set at \$20,000 for an individual item or a group of related assets.
- (13) The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

There is no substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

Accounting Changes

Principles Based Bond Definition Project

Effective January 2025, the NAIC Statutory Accounting Principles Working Group adopted reporting changes under the Principles Based Bond Definition project. These reporting changes required review of the Company's bond portfolio to determine whether or not each security meets the new principles-based definition of a bond under SSAP 26. The review of the bond portfolio included evaluation of the economic substance of each security relative to the revised guidance in SSAP 26 Bonds, SSAP 43 Asset-backed Securities, and SSAP 21 Other Admitted Assets. The impact of these changes is outlined in Note 21 C of this statement.

Correction of Errors

During 2024, corrections were made to 2023 balances resulting in a \$2,326,270 increase in Net realized capital gains(losses) and a decrease of \$2,326,270 to the Miscellaneous Surplus Adjustment. In accordance with SSAP No. 3 - Accounting Changes and Correction of Errors, these changes are being treated as a correction of an error and presented as an adjustment to unassigned surplus of \$2,326,270 for the period ended December 31, 2024.

During 2024, corrections were made to 2022 and 2021 balances resulting in an increase in insurance taxes, licenses and fees of \$3,843 and \$13,313 respectively. As a result of this correction \$326,560 of state income tax receivables were written off. In accordance with SSAP No. 3 - Accounting Changes and Correction of Errors, these changes are being treated as a correction of an error and presented as an adjustment to unassigned surplus of \$343,716 for the period ended December 31, 2024.

8. Derivative Instruments

A. Derivatives under SSAP No. 86 - Derivatives

- (1) The Company owns equity index options to limit its net exposure to equity market risk. The Company also enters into various equity and interest rate contracts to hedge the general business risk. The Company entered into cross currency swaps to limit its currency exposure from foreign currency denominated assets. The Company receives collateral from its derivative counterparties to limit the risk of nonperformance by the counterparties. The Company executes FX forwards to offset the foreign currency exposure risk associated with certain FX-denominated securities or the FX-denominated notes issued to the Company by an SPV which holds FX-denominated securities.
- (2) The Company's derivative portfolio consists of equity index options to hedge the growth in interest credited to the customers on the indexed universal life insurance products as well as various equity and interest rate contracts to mitigate the general business risk. The total net carrying value of derivative assets were \$92,901,135 and \$90,338,250 as of December 31, 2025 and December 31, 2024, respectively.
- (3) The Company has designated fair value hedge cross curenecy swaps to hedge the foreign currency risk associated with foreign currency-denominated bonds. The Company entered into interest rate swaps hedging Federal Home Loan Bank libailities which employs hedge accounting. The derivatives that hedge those assets and liabilites are valued in a manner consistent with the underlying hedged item, which are carried at amortized cost. Per Iowa Administrative Code 191-97, the equity indexed options are carried at amortized cost, with amortization recorded as a component of net investment income. The future contracts are accounted for under the fair value method of accounting, with changes in fair value recorded as unrealized investment gains or losses. The realized gains/losses are recorded at the contract expiration date.
- (4) Derivative contracts with financing premiums - Not Applicable
- (5) Net gain or loss recognized - Not Applicable
- (6) Net gain or loss recognized from derivatives no longer qualifying for hedge accounting - Not Applicable
- (7) Net investment income and realized gains and losses related to derivatives are reported within the investing section of the statement of cash flows.
- (8) The Company has designated bond forwards to hedge the interest rate risk associated with the planned purchase of AFS debt securities in a cash flow hedge. Regression analysis is used to assess the effectiveness of this hedge. For the year ended December 31, 2025, the bond forwards were recorded at cost. Following the qualifying purchases of AFS securities, the fair value of the portion of the bond forward associated with each purchase will be adjusted to the AFS book values, and accretion or amortization will be recognized over the life of the securities using the effective interest method. This arrangement is hedging purchases through December 2028 and is expected to affect earnings until 2055. There was \$145,000,000 of AFS securities purchased year to date through the year ended December 31, 2025, and the fair value (\$38,910,559) of the hedge associated with each purchase was adjusted to the AFS security book values.
- (9) Premium Cost for Derivative Contracts - Not Applicable
- (10) Aggregate excluded components by category - None

B. Derivatives under SSAP No. 108 - Derivative Hedging Variable Annuity Guarantees (Life/Fraternal Only) - Not Applicable

The ultimate realization of deferred tax assets depends on the generation of future taxable income during the periods in which the temporary differences are deductible and prior to the expiration of capital loss, net operating loss and tax credit carry-forwards. Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carry-back and carry-forward periods), projected taxable income, and tax planning strategies in making this assessment. Management believes it is more likely than not that all deferred tax assets will be realized based on projected taxable income and available tax planning strategies. There were no tax planning strategies used related to reinsurance.

Notes to the Financial Statements

9. Income Taxes (Continued)

F. Consolidated federal income tax return

- (1) The Company will file in a consolidated life/non-life federal income tax return with its parent, Global Atlantic Limited (Delaware), and its affiliates. The Company is a party to a written agreement, approved by the Company's Board of Directors, which sets forth the manner in which the total combined federal income tax is allocated to each entity within the consolidated group. The Company has also entered into a supplemental tax sharing agreement with three of its subsidiaries: Cape Verity I, Cape Verity III, and Gotham Re, Inc. ("Captive Reinsurance Affiliates"), whereby the Company is obligated to perform all of the Captive Reinsurance Affiliates' tax sharing obligations and is entitled to accepted all of the Captive Reinsurance Affiliates' tax sharing benefits. Accordingly, any current taxes payable or receivable of the Captive Reinsurance Affiliates' are reflected by the Company.
- (2) The IRS routinely audits the Company's federal income tax returns, and when appropriate, provisions are made in the financial statements in anticipation of the results of these audits. The Company believes that its income tax filing positions and deductions will be sustained on audit, and does not anticipate any adjustments that will result in a material, adverse effect on the Company's financial condition, results of operations, or cash flow. Therefore, no reasonable estimate can be made for tax loss contingencies and none has been recorded.

- E. Joint and Several Liabilities
Pursuant to the Coinsurance Agreement between the Company and Aviva Life and Annuity Company dated as of October 2, 2013, the reinsurance liabilities assumed from Aviva Life and Annuity Company include certain third-party claims.

In connection with the process of converting over 500,000 in-force life insurance policies from systems managed by Athene Holdings Limited, or "Athene," to the platform of one of our third party service providers, DXC, or the "Conversion," the Company expects to incur a variety of litigation and regulatory costs. The Company has received formal and informal inquiries from state regulators concerning the administration of policies, policyholder complaints and possible violations of state insurance or consumer protection laws, which have resulted in and may result in additional fines, monetary settlements or proceedings. For example, on June 13, 2018, Accordia received notice of a regulatory matter from the California Department of Insurance regarding administration issues relating to certain California life insurance policies reinsured by Accordia which are administered by DXC. On August 19, 2020, Accordia and the California Department of Insurance resolved the dispute, whereby Accordia paid a \$11.5 million fine and agreed to perform certain corrective actions for California policyholders impacted by conversion.

An independent life insurance producer filed a class action complaint in the Southern District of Iowa against Accordia and DXC, seeks to represent a class of Accordia independent producers whom he claimed were harmed by, and unable to receive renewal commissions due to, the Conversion. On June 26, 2020, plaintiffs filed for preliminary approval of a class settlement entered into by the parties to the case. The settlement includes a \$3.1 million common fund and additional injunctive relief. The court granted preliminary approval of the settlement on July 7, 2020, and granted final approval on October 27, 2020. The \$3.1 million common fund has been put in escrow by the defendants.

Notes to the Financial Statements

14. Liabilities, Contingencies and Assessments (Continued)

The Company has also been named in several lawsuits involving Conversion-related issues and may face additional claims in the future. Accordia was a defendant in a policyholder class action, *Clapp, et al. v. Accordia Life and Annuity Company, et al.*, in the Central District of Illinois, and before that, was also a defendant in a putative policyholder class action *McGuire v. Accordia Life and Annuity Company, et al.*, in the Central District of California. Both cases alleged injuries to policyholders related to billing issues stemming from the Conversion. In December 2018, the parties in the *McGuire* action filed a joint stipulation of dismissal without prejudice. The plaintiffs in the *Clapp* action filed an amended complaint alleging claims on behalf of a nationwide class, subsuming the claims previously brought in the *McGuire* action. On June 7, 2019, the court preliminarily approved of the settlement agreement the Company entered into in May 2019 with the plaintiffs in the *Clapp* matter, and the court provided final approval of the settlement on June 23, 2020. Under the settlement, we are providing policyholder remediation, including a claim review process with third party review upon request of a policyholder.

Although the ultimate legal and financial responsibility cannot be estimated and the actual future expenditures to address Conversion matters could prove to be materially different from the amount that was accrued or reserved, the Company believes that certain liabilities are probable and can be reasonably estimated.

F. Subprime-Mortgage-Related Risk Exposure

(1) While the Company holds no direct investments in subprime mortgage loans, the Company may have limited exposure to subprime borrowers through direct investments in primarily investment grade subprime residential mortgage-backed securities. The Company's definition of subprime is predominantly based on borrower statistics from a residential pool of mortgages. Included in the statistics evaluated is the average credit score of the borrower, the loan-to-value ratio, the debt-to-income statistics, and the diversity of all these statistics across the borrower profile. As is true for all securities in the Company's portfolio, the entire mortgage-backed asset portfolio is reviewed for impairments at least quarterly. Additionally, reviews of specific mortgage-backed securities are made on a periodic basis by reviewing both the unrealized gain/loss as well as changes to the underlying statistics. Included in the analysis are current delinquency and default statistics, as well as the current and original levels of subordination on the security.
