B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium paying period of the related policies. Annuity considerations are recognized as income when received. Deposits on deposit-type contracts are entered directly as a liability when received. Treaties that do not meet the definition of risk transfer are recorded under the rules of deposit accounting as prescribed in Statement of Statutory Accounting Principles (SSAP) No. 61R – *Life, Deposit-Type and Accident and Health Reinsurance*. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. The amount of dividends to be paid to policyholders is determined annually by the Company's Board of Directors. The aggregate amount of policyholder dividends is set such that anticipated revenue from the Closed Block is expected to be sufficient to support future payments for claims, certain expenses and taxes and to provide for the continuation of the dividend scales set in that year. In addition, the Company uses the following accounting policies:

- (1) Short-term investments that have original maturities of greater than three months and less than twelve months at date of purchase are carried at amortized cost, which approximates fair value.
- (2) Bonds not backed by other loans are stated at amortized cost or fair value, using the modified scientific method, in accordance with the NAIC Purposes and Procedures Manual of the Capital Markets and Investment Analysis Office. The Company does not hold SVO - designated securities which would be valued using a systematic value measurement method.
- (3) Common stocks are carried at fair value, except investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 10% or more are carried on the equity basis.
- (4) Preferred stocks are stated at cost or amortized cost except those rated NAIC class 4 or lower quality, which are carried at the lower of cost or fair value.
- (5) Mortgage loans are stated at amortized cost or fair value, in accordance with the NAIC Purposes and Procedures Manual of the Capital Markets and Investment Analysis Office.
- (6) Asset-backed securities are stated at amortized cost using the interest method including anticipated prepayments at the date of purchase in accordance with SSAP No. 43 - *Asset-backed Securities*. Changes in prepayment speeds and estimated cash flows from the original purchase assumptions are evaluated quarterly and are accounted for on the prospective basis.
- (7) Investments in common stocks of subsidiaries, controlled and affiliated entities are carried at the Company's share of underlying GAAP equity.
- (8) The Company has ownership interests in limited partnerships, joint ventures, or limited liability entities. The Company carries these interests based upon their proportionate share of the underlying GAAP equity of the investment.
- (9) Derivative instruments are accounted for at fair value. The changes in the fair market value of the derivative instruments are recorded as unrealized gains or unrealized losses until termination.
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

- (11) Claim reserves are established equal to 100% of the estimated benefit payable.
- (12) The Company did not have a change in the capitalization policy or resultant predefined thresholds from the prior year.
- (13) The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

There is no substantial doubt about the Company’s ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

Accounting Changes

SSAP No. 101

In December 2025, the NAIC adopted revisions to SSAP No. 101, *Income Taxes*, incorporating certain provisions of ASU 2019-12, *Income Taxes*, (Topic 740), related to interim-period income tax accounting, including guidance on annual effective tax rate methodologies. The Company continues to compute interim income taxes using actual year-to-date taxable income. The Company believes this methodology approximates the annual effective tax rate approach contemplated under SSAP No. 101 due to the relative stability and predictability of the Company’s operations. The Company has evaluated the impact on income taxes due to the adoption of the revised guidance and concluded there was no material impact to the financial statements for the year ended December 31, 2025, or for the period ended June 30, 2026.

Principles Based Bond Definition Project

Effective January 2025, the NAIC Statutory Accounting Principles Working Group adopted reporting changes under the Principles Based Bond Definition project. The reporting changes required review of the Company's bond portfolio to determine whether or not each security meets the new principles-based definition of a bond under SSAP 26. The review of the bond portfolio included evaluation of the economic substance of each security relative to the revised guidance in SSAP 26 Bonds, SSAP 43 Asset-backed Securities, and SSAP 21 Other Admitted Assets. The impact of these changes is outlined in Note 21 C of this statement.

Net Negative IMR

In August 2023, the NAIC Statutory Accounting Principles Working Group adopted changes that allow companies to admit net negative interest maintenance reserves (IMR) with certain criteria. A company with at least 300% ACL RBC, shall admit net negative IMR as an asset across both general and separate accounts in the amount up to 10% of adjusted capital and surplus of the general account. In addition, an amount equal to the admitted net negative IMR must be included in special surplus from unassigned surplus. A company that admits net negative IMR must include accompanying disclosures. The accounting changes are effective through December 31, 2026 and are nullified as of January 1, 2027.

The Company had \$31,607,768 gross negative IMR of which \$19,646,716 was non-admitted and \$11,961,052 of net negative IMR was presented as an admitted asset in the general account, as of June 30, 2026. There was no negative IMR amount recorded which related to insulated or non-insulated separate accounts.

The adjusted surplus amount used to calculate the 10% limit was \$119,610,513 based on reported surplus as of March 31, 2026, adjusted as prescribed for certain balances.

The Company attests that:

- a. Fixed income investments generating IMR losses comply with the reporting entity's investment and liability management policies.
- b. IMR losses for fixed income related derivatives are all in accordance with prudent and documented risk management procedures, in accordance with a reporting entity's derivative use plans and reflect symmetry with historical treatment in which unrealized derivative gains were reversed to IMR and amortized in lieu of being recognized as realized gains upon derivative termination.
- c. Any deviation to (a) was either because of temporary and transitory timing issue or related to a specific event, such as a reinsurance transaction, that mechanically made the cause of IMR losses not reflective of reinvestment activities.
- d. Asset sales that were generating admitted negative IMR were not completed by liquidity pressures (e.g., to fund significant cash outflows including, but not limited to excess withdrawals and collateral calls).

3. Business Combinations and Goodwill - Not Applicable

4. Discontinued Operations

The Company does not have any discontinued operations.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

- (1) The maximum and minimum lending rates for mortgage loans invested in during 2026 were 11.00% and 3.62%, respectively.
- (2) Maximum percentage of any one loan to the value of security at the time of the loan, exclusive of guaranteed or purchase money mortgages was 100%.
